

Dream Singles Rate Sheet

What men may actually pay to communicate and unlock profile content

Conclusion first: credits are the real meter. Membership does not make all communication or profile content free.

LETTER	LOCKED PHOTO	PRIVATE ALBUM	LIVE CHAT	CHAT + VIDEO
10 credits	10 credits	50 credits	1 cr/min*	2 cr/min*
*Paid Silver/Gold/Platinum/Diamond rates. Bronze/free rates are double for live chat/video.

Documented Unlock Prices

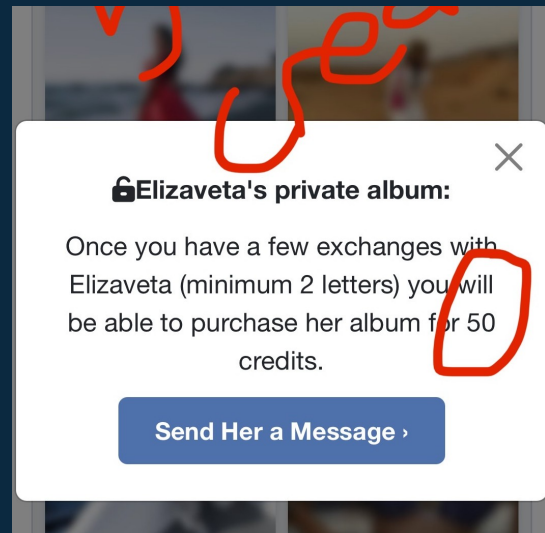

These are redacted/cropped screenshots from the live account flow. The surrounding annotations are ours.

SINGLE LOCKED PHOTO

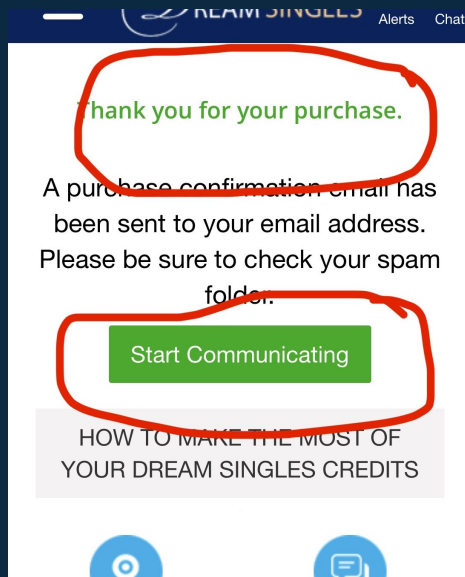

Dream Singles states: 10 credits to open one photo.

PRIVATE ALBUM

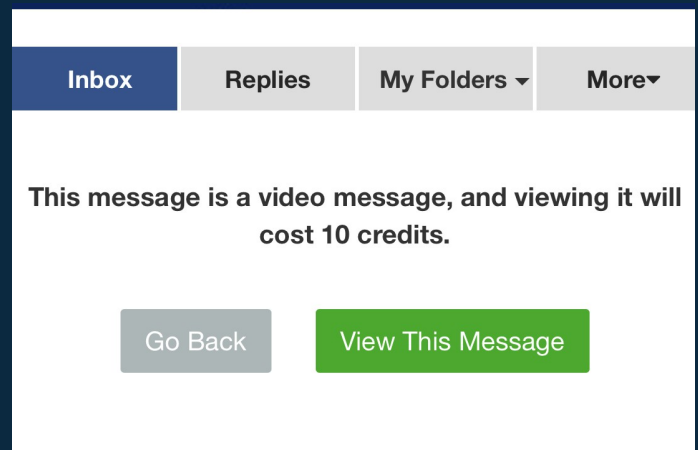

Dream Singles states: 50 credits after minimum 2 letters.

50-CREDIT PURCHASE

Current account screen: 50 credits = \$39.

VIDEO MESSAGE WARNING

Screen warns: viewing this video message costs 10 credits.

User reports 20 total credits deducted when the letter + attached video were opened. That 20-credit total is observed account behavior; an official explanation for the extra 10 is still unverified.

Membership and Pricing Context

A membership can reduce or include some services, but credits remain a separate paid currency for many actions.

PUBLISHED MONTHLY MEMBERSHIP PRICES

Level	Published monthly price	Notes
Silver	\$9.99 / month	Entry paid membership
Gold	\$29.99 / month	Account upgrade screen showed \$20 upgrade from Silver
Platinum	\$49.99 / month	Account upgrade screen showed \$40 upgrade from Silver
Diamond	\$99.99 / month	Account upgrade screen showed \$90 upgrade from Silver

THE PRACTICAL PROBLEM: THERE IS NO SINGLE RATE SHEET

Dream Singles' prices are fragmented across membership pages, credit purchase screens, Help/FAQ articles, and point-of-purchase warnings.

A member can know what a credit package costs without yet knowing what a specific photo, album, letter, video message, or live interaction will consume. Some prices only appear immediately before the user commits to an action.

That is why this independent sheet distinguishes between **published rates**, **on-screen verified prices**, and **observed account deductions**.
